## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

### DETAILED ACTION

1. The Office action is responsive the Applicants' Arguments filed 09-07-04.

Claims 63-97 are pending in the application.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 63-97 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the independent claims 63, 82, 85, 87, 89, 91 and 96, the specification lacks support for the subject matter "a memory array comprising a plurality of groups of data cells and address cells, said cells in each of said groups of data cells and address cells respectively storing data and addresses." The specification on pages 16 and 17 only depicts "a typical sector 401 organized into a data portion 403 and a spare (or shadow) portion 405" and "the spare portion 405 is further organized into an alternative defects data area 407, a defect map area 409, a header area 411 and an ECC and others area 413." Therefore the specification fails to describe groups of address cells for storing address in a memory array.

***Response to Arguments***

4. Applicant's arguments filed 09-07-04 have been fully considered but they are not persuasive.

In the Remarks, the Applicants argued that the present application provides support for "a memory array comprising a plurality of groups of ... address cells, said cells in each of said groups of ... address cells ... storing ... addresses. This is not correct. The specification on page 17, lines 6-8, only describes the addresses of the defective cell and the backup cell stored as defect pointers in the defect map 409. The specification does not mention about address cells and storing addresses as claimed, but only about the addresses ...stored as defect pointers.

Secondly, at the bottom of page 9 and at the top of page 10, the Applicants argued that address cells are for storing addresses and cited U.S. Patent 6,141,267 to Kiriata to argue that Kiriata teaches "said address cells are ... for storing addresses of defective ones of data cells." The Examiner completely agrees that point. However, in the instant application, the address cells were never described in the specification. Therefore claims 63-97 are rejected for lacking support from the specification as originally filed.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
